

Daniel Moretti

Rust · TypeScript · Python · AI Agents & Voice Systems

Built a voice-AI company's entire stack, first commit → 100+ B2B clients.
Now going deep as an IC.

Santiago, Chile · GMT-4 · US-hours overlap daniel.morettiv@gmail.com

EXPERIENCE

Mappa · Co-Founder & CTO, hands-on IC 2023 - 2026

Voice-AI platform analyzing recruitment interviews · 100+ SMB & enterprise clients across the Americas · remote, US market

- **Voice pipeline, end-to-end:** Deepgram STT → LLM analysis → structured reports, 100+ interviews/day in production.
- **Agent harness + evals:** orchestration on the Vercel AI SDK with tool use, retries, and structured outputs, gated by hundreds of eval cases.
- **Backend:** event-driven TypeScript + Rust, Postgres, Temporal. Led the team; largest code contributor throughout.
- **Client impact:** hiring cycles cut by 300+ hours and ~\$30k per role.

Independent Engineer · Upwork 2017 - 2023

Six years of solo-owned production web apps, including healthcare-administration systems used daily by clinical staff.

Earlier 2019 - 2023

Woven: assessed engineering work across seniority levels for US hiring pipelines. **HackerOne:** multiple valid vulnerabilities on live targets.
